

**SETTLEMENT AGREEMENT**

This Settlement Agreement is made and entered into this 7<sup>th</sup> day of Aug., 2015 by and between the United States Attorney's Office for the District of Rhode Island, acting on behalf of the United States, the Drug Enforcement Administration ("DEA"), Providence Resident Office and CVS Health and all of its subsidiaries, entities, and affiliates, to the extent of their existence as a component or affiliate of CVS Health during the time period provided of the DEA Investigation as defined in Recital Paragraph I, herein (collectively "CVS") (each a "Party" and collectively the "Parties").

**I. Recitals**

- A. CVS Health is a Delaware corporation with its corporate headquarters in Woonsocket, Rhode Island. CVS Health, directly or through its retail pharmacy subsidiaries and affiliates, and through its CVS/pharmacy division, operates retail pharmacies in the State of Rhode Island that dispense prescription drugs, including controlled substances, to retail consumers (hereafter referred to as "CVS/pharmacy retail stores").
- B. Each CVS/pharmacy retail store in Rhode Island is separately registered with DEA and is assigned a unique DEA registration number that authorizes it to dispense controlled substances pursuant to the provisions of the Controlled Substances Act, 21 U.S.C. §§ 801 *et seq.* ("the Act"), and its implementing regulations. The CVS/pharmacy retail stores physically located in the State of Rhode Island will be referred to collectively herein as "Rhode Island CVS/pharmacy retail stores."
- C. Pharmacies registered with DEA as chain pharmacies are permitted to dispense prescriptions, including controlled substances.

D. CVS acknowledges that all of its DEA-registered CVS/pharmacy retail stores were and are required to comply with the CSA and the regulations promulgated thereunder.

E. The Act, specifically 21 U.S.C. § 842(a), forbids dispensing drugs on Schedules II through IV without a prescription that conforms to, *inter alia*, two requirements: first, that the prescription be issued for a “legitimate medical purpose in the usual course of professional practice . . . by a practitioner,” 21 U.S.C. § 829(e)(2)(A), and (2) that the issuing practitioner be “licensed by law to administer such drug.” 21 U.S.C. § 353(b); *see also* 21 C.F.R. § 1306.03(a)(1). A prescription that does not satisfy these criteria is not a valid prescription within the meaning of the Act.

F. CVS acknowledges that it has a corresponding responsibility to dispense only those prescriptions that have been issued for a legitimate medical purpose by an individual practitioner acting in the usual course of professional practice and that knowingly filling a prescription not issued in the usual course of professional treatment or by a prescriber not licensed to prescribe the substance dispensed subjects the pharmacy filling the prescription to penalties under the Act. 21 C.F.R. § 1306.04.

G. In addition, the Act requires that individuals and entities registered to prescribe, administer or dispense controlled substances observe various recordkeeping requirements with respect to those substances, including but not limited to accurately labelling controlled substance prescriptions that are dispensed to patients and consumers. 21 U.S.C. § 842 (a)(5) and 21 C.F.R. § 1306.24.

H. At all times relevant to this agreement, the Act authorized the imposition of civil penalties and/or administrative sanctions for each of the categories of Covered Conduct as described in Recital Paragraph J below

I. Between October 18, 2013 and March 2, 2015, the DEA Providence Resident Office conducted an investigation into CVS' dispensing of prescriptions from Rhode Island CVS/pharmacy retail stores (the "DEA Investigation").

J. The United States contends that it has certain civil and administrative claims under the Act and its implementing regulations based on CVS' conduct at its Rhode Island CVS/pharmacy retail stores between March 3, 2010 and the date of this agreement, which conduct was the subject of the DEA Investigation, to wit:

- (1) Filling prescriptions with invalid prescriber DEA numbers, or under circumstances where the pharmacist filling the prescription knew or had reason to know that the prescription in question was invalid or unauthorized, in violation of 21 U.S.C. § 842 (a)(1) and CVS' corresponding responsibility pursuant to 21 C.F.R. § 1306.04;
- (2) Filling prescriptions for Schedule III controlled substances written by psychiatric nurse practitioners who were not authorized under state law or by the terms of their DEA registration to issue such prescriptions, in violation of 21 U.S.C. § 842 (a)(1) and 21 C.F.R. § 1306.03(a)(1);
- (3) Entering, creating, or maintaining CVS dispensing records, including prescription vial labels, in which the DEA registration numbers of non-prescribing practitioners, including non-prescribing practitioners who were not legally authorized to prescribe the substances dispensed, were substituted for the DEA registration numbers of prescribing practitioners, in violation of 21 U.S.C. § 842 (a)(5) and 21 C.F.R. § 1306.24.

The conduct described above in this paragraph is hereinafter referred to as the "Covered Conduct".

K. CVS denies that any provision of the Act and the regulations thereunder have been violated, or that it is liable to the United States.

L. The United States and CVS desire to reach a mutual agreement that settles, compromises, and resolves all claims based on alleged violations of the Act identified in the

course of the DEA Investigation, without any admission of liability or wrongdoing in this or any other proceeding, in order to avoid the delay, uncertainty, and expense of litigation.

## **II. Terms of Agreement**

In accordance with the mutual covenants and agreements herein, and with full authority to enter into this Settlement Agreement and to be bound thereby, the United States, through the Office of the United States Attorney for the District of Rhode Island and its Drug Enforcement Administration, Providence Resident Office, and CVS agree as follows:
